Correct Answers:

1	2	3	4	5
D	A	C	B	E

Common Explanations:

Reference:

The persons sitting on bench 1 are facing north and those on bench 2 are facing south such that each person of both the benches faces each other.

Inference:

On the basis of above hint we can infer the arrangement in which benches are situated.

Reference:

Gayu faces Hina, who does not sit at any of the extreme ends.

Hina sits second to the right of Dia.

Inference:

Here we can have following two cases.

Case 1 - When Gayu sits on bench 2.

Case: 1

Case 2- When Gayu sits on bench 1.

Case: 2

Reference:

Bani faces the person who is second to the right of Ahana.

Ela and Bani neither sits in the same row nor faces each other.

Inference:

Note- We cannot place Bani on Bench 2 in Case 1, because in that case second hint will get violate i.e. Ela and Bani will face each other.

Case: 1

Note- We cannot place Bani on Bench 1 in Case 2, because in that case second hint will get violate i.e. Ela and Bani will face each other.

Case: 2

Reference:

Fiza sits in the same row in which Ela sits.

Caira sits on bench 1.

Inference:

Clearly we can see that in Case 2, we cannot place Caira at bench 1. Thus it gets violated.

Thus we obtain the final arrangement through Case 1.

Answers :

1. From the following explanation it is clear that Dia and Ela face each other.

Hence option D is correct.

2. From the following explanation it is clear that Hina sits on Bench 1. Thus is the odd one out because all other persons sit on bench 2.

Hence option A is correct.

3. From the following explanation it is clear that Ela- Caira is the pair of persons who sit at extreme ends.

Hence option C is correct.

4. From the following explanation it is clear that Fiza is second to the right of Ahana.

Hence option B is correct.

5. From the following explanation it is clear that Hina- Ahana are not facing each other.

Hence option E is correct.
