**Correct Answers:**

1	2	3	4	5
B	C	D	E	A

**Explanations :**

**1. Decoded representation:**

B is the father of A. R is the sister of A. R is the daughter of E. E is the mother of Y. D is the brother of Y.

Thus clearly, only option B i.e. R is the sister of Y

**2. Decoded representation:**

M is the son of T. T is the father of W. W is the daughter of Q. J is the sister of Q.

J is the maternal aunt of M.

Hence option C is correct.

**3. Decoded representation:**

G is the daughter of K. K is the son of M. M is the father of X. X is the mother of S. S is the daughter of R.

Except, "K is the paternal uncle of S." all other conclusions can be derived.

Hence option D is correct.

#### 4. Decoded representation:

V is the son of F. D is the sister of F. H is the brother of D. H is the father of O. O is the daughter of M.

As we don't know whether F is the father or mother of V, thus we can't determine whether M is the Maternal aunt or Paternal aunt of V.

Hence, option E is correct.
