

## Coding Decoding Questions for IBPS Clerk Pre, LIC Asst., SBI Clerk Pre and RRB Asst. Pre Exams.

## Coding Decoding Quiz 29

Directions: In each of the following questions given below, a group of digits/letters is given followed by four combinations of symbols numbered A, B, C and D. you have to find out which of the following four combinations correctly represents the group of digits/letters based on the symbol codes and the conditions given below.

| Letter | Q | D | I | P | S | E | H | R | C | U | M | W | N | A | J | B | O |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Code | 7 | $@$ | 5 | 4 | 1 | $\#$ | 6 | \$ | $\%$ | 9 | $\&$ | 3 | 2 | $?$ | 0 | 8 | ! |

Condition 1:
If there are more than two vowels in the word then the code will be written in reversed order.

Condition 2:
If there is no vowel in the word then first three letters of the code will be written in reversed order.

Condition 3:
If any two letters of the word are same then last two letters of the code will be interchanged.
Note: If more than one condition are to be applied, all will applied.

1. What would be the code of the word 'PMIMN'?
A. $\$ 4 \$ 68$
B. $1 \% 3 \% 6$
C. $4 \& 52 \&$
D. $\$ 5 \$ 46$
E. None of these
2. What would be the code of the word 'QJCWM'?
A. 71 \$3\%
B. $0736 \%$
C. $78 \& \% 4$
D. \%073\&
E. None of these
3. What would be the code of the word 'RIWED'?
A. $\$ 73 \% 5$
B. !82\#@
C. \$52?@
D. \$\#53@
E. None of these
4. What would be the code of the word 'SUPAE'?
A. 5@4?1
B. \#?491
C. 496?\#
D. \#5!91
E. None of these
5. What would be the code of the word 'HNRBH'?
A. $\$ 2 ? 28$
B. $0 \$ 06 \%$
C. \$2668
D. \$2686
E. None of these

## Correct Answers:

| $\mathbf{1}$ | $\mathbf{2}$ | $\mathbf{3}$ | $\mathbf{4}$ | $\mathbf{5}$ |
| :--- | :--- | :--- | :--- | :--- |
| C | D | E | B | C |

## Explanations:

1. Here, we can see that the two letters ' $M$ ' of the word ' $P M I M N$ ' are same. Therefore, Condition 3 can be applied:

| Letter | Q | D | I | P | S | E | H | R | C | U | M | W | N | A | J | B | O |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Code | 7 | $@$ | 5 | 4 | 1 | $\#$ | 6 | $\$$ | $\%$ | 9 | $\&$ | 3 | 2 | $?$ | 0 | 8 | ! |

Then, the code of the word 'PMIMN' is '4\&5\&2' after applying the conditions '4\&52\&'.
Hence, the correct answer is option C.
2. Here, we can see that there is no vowel in the word ' $Q J C W M$ '. Therefore, Condition 2 can be applied:

| Letter | Q | D | I | P | S | E | H | R | C | U | M | W | N | A | J | B | O |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Code | 7 | $@$ | 5 | 4 | 1 | $\#$ | 6 | $\$$ | $\%$ | 9 | $\&$ | 3 | 2 | $?$ | 0 | 8 | ! |

Then, the code of the word 'QJCWM' is ' $70 \% 3 \&$ ' after reversing first three letters ' $\% 073$ '. Hence, the correct answer is option D.
3. Here, we can see that there is no condition applicable in this case. So, we can write the code of 'RIWED' directly from the given table:

| Letter | Q | D | I | P | S | E | H | R | C | U | M | W | N | A | J | B | O |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Code | 7 | $@$ | 5 | 4 | 1 | $\#$ | 6 | \$ | $\%$ | 9 | $\&$ | 3 | 2 | ? | 0 | 8 | ! |

Then, the code of the word 'RIWED' is '\$53\#@'.
Which does not matches with any of our given options.
Hence, the correct answer is option E.
4. Here, we can see that there are more than two vowels in the word 'SUPAE'. Therefore, Condition 1 can be applied:

| Letter | Q | D | I | P | S | E | H | R | C | U | M | W | N | A | J | B | O |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Code | 7 | $@$ | 5 | 4 | 1 | $\#$ | 6 | $\$$ | $\%$ | 9 | $\&$ | 3 | 2 | $?$ | 0 | 8 | ! |

Then, the code of the word 'SUPAE' is '194?\#' after reversing the code '\#?491'.
Hence, the correct answer is option B.
5. Here, we can see that there is no vowel in the word 'HNRBH' and the two letters ' H ' are same. Therefore, both Conditions 2 and 3 can be applied:

| Letter | Q | D | I | P | S | E | H | R | C | U | M | W | N | A | J | B | O |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Code | 7 | $@$ | 5 | 4 | 1 | $\#$ | 6 | \$ | $\%$ | 9 | $\&$ | 3 | 2 | $?$ | 0 | 8 | ! |

Then, the code of the word 'HNRBH' is ' $62 \$ 86$ ' after applying the conditions ' $\$ 2668$ '.
Hence, the correct answer is option C.
