Who: Punjab Govt

What: Announces Waiver of Rs 590 Cr of Loans of Labourers, Landless Farmers

When: published on 14th July 2021

The Punjab government on Wednesday announced waiver of Rs 590 crore worth of loans under the farm debt waiver scheme for labourers and the landless farming community. The cheques would be issued at a state-level function on August 20, said an official spokesperson after a meeting held on Tuesday.

The Punjab government will pay off loans to the tune of Rs 520 crore of 2,85,325 members of the Primary Agricultural Cooperative Societies (PACS), thus ensuring a relief of Rs 20,000 per member, Chief Minister Amarinder Singh said. This decision will pave the way for fulfillment of the key promise of the Congress-led regime. He directed the finance and cooperation departments to kick off the process for effective implementation of the decision on the ground.

The Congress-led government had formulated a Debt Relief Scheme for Farm Labourers and Landless Farming Members of PACS-2019, which would cover only consumption loans to the members of the Primary Agricultural Cooperative Societies advanced by district central cooperative banks in the state of Punjab through Primary Agricultural Cooperative Societies. The CM's announcements follow the waiver of the loans of farmers under the Chief Minister's flagship 'Debt Waiver Scheme.' So far, loans worth Rs 4,624 crore have been waived of as many as 5.64 lakh farmers under the scheme, which was announced as part of the 2017 poll promises by the Punjab Congress.

Who: Defence Minister Rajnath Singh

What: Launched AI-powered Grievance Management App

When: published on 17th July 2021

Minister of Defence Rajnath Singh launched an Artificial Intelligence (AI)-powered grievance management application in New Delhi on July 15, 2021. The application is developed by the Ministry of Defence with the help of the Indian Institute of Technology (IIT) Kanpur. Dr Jitendra Singh, Minister of State (IC) for Personnel, Public Grievances and Pensions was also present at the occasion.

This is the first AI-based system developed to improve grievance redressal in the government. The AI tool developed has the capability to understand the content of the complaint based on the contents therein. As a result, it can identify repeat complaints or spam automatically. Based on the meaning of the complaint, it can categorise complaints of different categories even when keywords normally used for such search are not present in the complaint. It enables geographical analysis of complaints in a category including analysis of whether the complaint was adequately addressed or not by the concerned office. Easy user-friendly search enables the user to formulate his own queries/categories depending on management requirements and seek performance results based on the query. Given that lakhs of complaints are received on the CPGRAMS portal of DARPG, this application will have great use in understanding the nature of complaints, geographies from where they emanate and policy changes that can be introduced to create systemic improvements to address these grievances.
